

Ring Link Filters 3 Ply

Environet Ring Links are ring panels that are formed into a continuous chain to eliminate bypass between panels.

Like Environet Ring Panels, Environet Ring Links are constructed from two layers of 100% synthetic polyester media thermally sealed around a 0.148" galvanized wire.

A support wire and radial bonds in the center of each panel keep the media from sagging and fluttering to prevent dust migration. A one inch overlap of media around the support wire ensures a positive seal and no dust bypass. Each layer of media has multiple fiber deniers (fiber diameter) which graduate from coarse to fine for maximum dust loading and efficiency. A latex resin dry tackifier is added on the downstream side as an added dust migrations prevention.

Nominal Size	Part Number	Price	Case Qty.
12 x 48	0801-3-1248		12
12 x 72	0801-3-1272		8
12 x 96	0801-3-1296		6

* Media layers are graduated density for optimized dust loading and high energy efficiency

*Engineered internal frame assures stability under high air velocity and heavy dirt loading

*Airtight seal is crafted with our unique overlapping edge to prevent dust bypass.

*Custom sized panels and media combinations are available contact customer service at 800-239-9495 or custmerservice@filtrationmanufacturing.com for pricing
